

Eagle Pump & Compressor's manufacture and custom package a wide range of air, gas and liquid handling products. The company has been serving both the petrochemical and industrial markets since 1939 and is located in Calgary, Alberta.

We carry the following from Eagle:

EL Series

PC800 Heavy Duty - Low Speed Pumps for industrial liquid handling; thin or viscous fluids.

Process Pumps for water, chemicals and hydrocarbons

- Capacities to 350 USGPM
- Pressures to 450 PSIG (Discharge)
- Case Material: cast iron, stainless
- Elastomers : Buna, Viton®
- Viscosities : 1 to 200,000 CP

EP Series

PC800 Medium Duty - High Speed Pumps for transferring, circulating and metering of light and viscous fluids.

Process Pumps for water, chemicals and hydrocarbons

- Capacities to 50 USGPM
- Pressures to 150 PSIG (Discharge)
- Case Material: cast iron
- Elastomers : Buna, Viton®
- Viscosities : 1 to 200,000 CP
