

Centrifugal Pumps

Single Stage Overhung (OH1)

Horizontal Process Pump. For chemical industry, industrial, general service, power plants and other applications. Magnetic Driven OH1 pump also available.

CPP

IPP

CPP-L

CRP-M

GSD

Single Stage Overhung (OH2)

Horizontal Process Pump Single Stage. For petroleum, petrochemical, heavy-duty chemical, gas industry, power plants, utilities and others. Magnetic Driven OH2 pump also available.

SCE

SCE-M

Horizontal Single Stage, Vertical Split Casing Pump. For paper stock, mining, steel, chemical and food processing applications.

PS

Vertical In-line Pump (OH4)

In-line Vertical Process Pump (Split Coupled). For Fire Service, Air Conditioning Systems, Condensed Water, Ice Water, Service Water, Ocean Water and Building Water Supply Systems.

IVP

Vertical In-line ANSI Pump (OH5)

Vertical In-line Process Pumps. For Chemical, Petrochemical, Coal, Fiber, Pulp and Paper, Food and Beverage, Pharmaceutical Fats and other applications. It meets the ANSI pumps meet the requirements of ANSI B73.2

IIL

Vertical In-line API Pump (OH3)

Vertical In-line, Process Pump. For petroleum refining, production and distribution. For petrochemical, chemical and other applications. The SPI design is accordance to API 610 latest edition, with mechanical seal chamber in accordance with API 682.

SPI

Vertical In-line API Pump (OH5)

Vertical In-line, Process Pump. For petroleum refining, production and distribution. For petrochemical, chemical and other applications. The SPN design meets the API 610 standard latest edition, with mechanical seal chamber in accordance with API 682.

SPN

Overhung

Two Chanel Impeller Centrifugal Pump. For sewage, fecal matter, rain watter, sludge and other applications.

ST

STV

Centrifugal Pump, Single Stage, Single Suction Design. For cooling water, drinking water, sea water, fire service, SOM as hot water pump and other applications.

SO

Horizontal Centrifugal Pump, with Single Channel Impeller. For municipal and industrial raw waste water, combined sewage, rain water, waste water and other applications.

ESK

Horizontal Pump with Three Channel Impeller. For waste water, combined sewage, rain water, fecal matter, sludge and other applications.

SKO

Solid Handling Pump. For water, waste water, river water, rain water and other applications.
